SPEECH THERAPY SERVICES LLC

Hippotherapy Program

Who can benefit
from hippotherapy?

We provide professional, effective speech and language therapy for children ages 2 to 10 utilizing hippotherapy. Hippotherapy is a speech and language treatment strategy that uses the natural movement of the horse to generate and support successful communication skills.

Children with...

- Autism & PDD
- Cerebral Palsy
- Developmental Delay
- Learning Disabilities
- Down Syndrome
- Sensory Integration Disorders
- Speech-Language Disorders
- Traumatic Brain Injury/Stroke

Horses are very motivating and a great self-esteem builder! Children experience the benefits of therapy without feeling like they are doing any work.
